### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Applicant's amendments work to further define the claimed structure over the prior art of record. The semiconductor device structure comprising at least an array of memory cells arranged in rows and columns, each cell including a first columnar structure having two first source/drain regions and a spaced apart second columnar structure having two second source/drain regions with a floating gate structure interposed therebetween, the floating gate structure being positioned closer to a selected one of the first and second columnar structures, is neither anticipated nor obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
